To Whom It May Concern

Dear Sir/Madam,

I am writing this letter in support of the proposal submitted for Riverwoods Investment Readiness Pioneers by Balloch Castle Country Park Regeneration Group (BCCPRG).

Their proposal is primarily focussed on improvements to waterways and native woodland in and around the Balloch Country Park, and would include an update to the existing 2014 Woodland Management Plan for the Park.

The Park is managed by the West Dunbartonshire Council and the group has been in discussions with the Council's Greenspace and Asset Management Teams regarding to their ambitions to work in partnership with the Council and actively engage in projects which could help improve the park for local residents and visitors.

The Council supports BCCPRG's proposal for Riverwoods Investment Readiness Pioneer and would work with the group to align and coordinate their plans with wider maintenance and improvement plans for Balloch Country Park.

I believe that the project would bring benefits to Balloch Country Park, contribute towards increasing biodiversity within the Park and help to address some of the existing issues.

Yours sincerely

A handwritten signature in black ink, appearing to read "Gillian McNamara".
